

ONE FAVORITE SUCCESSFUL.

JUNTRUSS EASILY BEATEN BY LARCHMONT.

AN IMPROVING TRACK AND BETTER RACING AT LINDEN PARK.

The Linden Park track was in better condition yesterday than on either Wednesday or Thursday and the racing was more satisfactory, though five favorites were beaten in succession, the only one to get home in front being Veronica in the last race. Annie Blackburn, who had been improving steadily in her work, both private and public, was neglected in the race, while a crazy plunge was made on Llewellyn Lloyd's St. John, on whom Garrison was not feeling watchful as the combination failed to score, Annie Blackburn winning cleverly after slipping in a wet spot at the starting post and unseating her rider, some of the bookmakers laid 10 to 1 against the winner, though on a majority of the slates the closing odds were 6 to 1. Annie Blackburn is a half-sister of old Long Knight.

The entries for the second race, a substitute for the sweepstakes at a mile and a sixteenth, which did not fill, were announced, comprising eleven sellings after 1 o'clock. The races were comprised eleven sellings after 1 o'clock. The races were comprised eleven sellings after 1 o'clock. The races were comprised eleven sellings after 1 o'clock.

Huntress was unable to concede Larchmont eleven pounds in the third race, the Preliminary cast-off being ridden very easily by a length and a half. Judiciously by Sims, Larchmont waited in the rear for half the journey, moved forward gradually on the approach to the finish, and won in impressive fashion. He ought to have won in the race that was carried 110 pounds to Lavinia Belle, in which he carried 110 pounds to her. But possibly the occasion was not propitious for her.

W. Ottman's unnamed filly by Reform out of Issaquena won the fourth race, as she pleased, leading all the way, and was a very good one. The filly and Brown Dick's speedy two-year-old Veronica who frequent the track had the good fortune to peer a well-to-do stranger on Jennie McFarland at 12 to 1 and was rewarded—the story goes—with 25,000 on the "tip." Kitty Peace showed phenomenal speed in the last race, but failed to last long enough to win. She is now kept up for brackets at five furlongs.

CHRISTIAN ENDEAVOR CONVENTION. CONNECTICUT UNION IN NEW HAVEN. New-Haven, Oct. 25 (Special).—Nearly 3,000 delegates from all over the State, attended the Connecticut Union of Christian Endeavor held in this city today. Exercises opened in Union Army at 9 a. m. A. E. Kilbourne, of Middletown, secretary and treasurer, reported that last year there were 234 societies in the State with a membership of 17,000. To-day there are 418 societies, with a total membership of about 30,000. In his annual address, the president, the Rev. H. N. Kinney, of Winsted, said: The prayer meeting of the future will in general be held up and inside out, compared with the prayer meeting of today. The leader will sit where he preaches, only it will be near somebody. The economy will be fact on another in corner grounds around the evening times, only no one will be allowed to have his favorite corner.

Professor Waldo S. Pratt, of Hartford, speaking of prayer-meeting singing, said: Merely hitting a jangling verse to a jangling melody, or even a graceful verse to a graceful melody, has no virtue as a part of a prayer meeting unless it directly feeds the main current of the meeting as a whole. Prayer meetings are too serious matters to be decked out with useless trifles or amusing episodes. The prayer meeting of the future will be a more serious matter, and the prayer meeting of today will be a more serious matter.

The Highest Praise.

"I am a Presbyterian clergyman and a Doctor of Divinity. I am not afraid to recommend Dr. W. W. Phelps' Pure Malt Whiskey as the purest and most efficient preparation as a medicine that I know of, and one which I can recommend to my fellow-men." REV. H. M. LILLIS, LL. D.

"I highly recommend Dr. W. W. Phelps' Pure Malt Whiskey and prescribe it extensively in my practice." R. W. HUTCHINSON, M. D., New-York.

"Dr. W. W. Phelps' Pure Malt Whiskey is free from food oil, adulterations, or foreign ingredients, and of the quality superior to any other malt whiskey." PROF. HENRY A. MOTT, Ph. D., N. Y.

"I consent in the endorsement of all that has been said of Dr. W. W. Phelps' Pure Malt Whiskey." E. SPINER, Late Treasurer of the United States.

Can any higher endorsements than the above be produced to any known article? Is it possible to produce any other that will prove the purity and power of this great remedy? Yes, however, and secure only the genuine, and take note that Dr. W. W. Phelps' Pure Malt Whiskey is sold by all reputable druggists.

The Edison Electric Illuminating Co. of New-York. General Office, 432 Fifth Avenue.

To the Public: Inasmuch as the subject of electric lighting is now agitating the public mind, and many believe that there is no safe method of employing electricity for supplying light and power, the Edison Electric Illuminating Company of New-York would respectfully invite all parties interested to examine these stations, located Nos. 42 to 50 West 25th street, between the hours of 2 and 5 o'clock P. M., for the next ten days and verify for themselves the force of the current. The greatest shock that can be taken from the Edison System is 115 volts on a side, and even if both sides of an Edison three-wire system (which is the system generally used by it) are handled, it is only equal to 230 volts of continuous current, which will not in any way injure a person and is nothing like so great as a shock from an ordinary battery as now used for general medicinal purposes. No body has ever been killed or injured by the Edison incandescent system, which, being a continuous current of low tension, is incapable of producing death or even injury.

It takes from 1,000 to 1,500 volts of continuous current to kill, and such pressure is never employed by the Edison system, and it is possible to produce from the apparatus used by it. Moreover, the Edison system as used in New-York and other large cities has always been carried entirely under ground.

There will be in attendance at the Station between the hours named an employee who will demonstrate the harmoniousness of the system, and it is hoped that all parties interested will take advantage of this offer. THE EDISON ELECTRIC ILLUMINATING CO. OF NEW-YORK. By order of the Board of Directors.

Dr. McCosh Becomes Facetious.

The venerable scholar thinks of answering Dr. Briggs'—A NEW REVIEW DESIRED. Princeton, Oct. 25.—Dr. President McCosh, of Princeton College, was seen to-day by a Tribune correspondent, seated in his library, surrounded by books, chiefly philosophical, while on the large staff of books, an abundance of manuscript, seeming to show that the venerable scholar was in the habit of reading Dr. Briggs' address on the Higher Criticism, which he delivered on the opening of the Union Seminary. I received the address two days ago, and yesterday I scribbled some notes on these loose papers, which I am greatly tempted to publish under the title: "Whither, O Whither, Tell Me Where?" Dr. Briggs' book "Whither" I consider I was provoked by it, and I believe that I am not alone in feeling so.
